

Welcome to TITAN Lab

{xtypo_info} TITAN is the Telecommunication & Information Theory for Advanced Networking Laboratory of the Department of Informatics, Modeling, Electronics and System Engineering (D.I.M.E.S.), at University of Calabria {/xtypo_info}

The laboratory supports research projects in a broad range of topics in Network Communications and Information Theory, it joins professors and students who research over the following areas:

-

Digital Transmission

-

Error correction codes

-

Information theory and data compression

-

Localization techniques

-

Security and cryptography

-

Satellite Communication

-

Sensor Networks

-

Mesh Networks

-

Cellular 3G Networks

-

Design of software for mobile handled devices

-

Cost and business models for Satellite Multimedia services
